Specifications

Part No.	Bar	Lpm	Kw	Volts	Manifold	Kg
TX12100M	100	12	2.2	230	Brass	43
TX15150M	150	15	4	415	Brass	43

- Two-piece gun and lance, with variable angle nozzle head
- Current thermal overload protection
- Motor protection to IP55 standard
- Low pressure chemical injection system
- Lance, hose and power cable storage facility
- 8 metre high pressure hose with 22mm couplings
- Large capacity thermoplastic integral chemical tank
- Dimensions 860L x 400W x 875H (mm)

Optional Hose Reel

Part No.	Description
ZTXAVV	Fits all TX TSX models

- M22 M inlet/outlet
- Complete with securing bolts
- Holds up to 25m of 3/8" hose - Not included
- With connector hose - M22 F inlet/outlet
